EXPERIENCE

Placement Software Engineer

Drilling Systems

- 📅 07/2023 - 07/2024 📍 Bournemouth, United Kingdom
- Developed and optimized advanced simulation software using C# and object-oriented principles to enhance system performance. Collaborated in a Agile teams, ensuring efficient testing, debugging, and seamless integration of new features.
- Used Visual Studio, Jira, Bitbucket, and Confluence to manage development tasks and project workflow.
- Contributed to performance optimizations and collaborated cross-functionally to improve system user experience.

Retail Assistant

Primark

- 📅 2019 - 2021 📍 Birmingham, United Kingdom
- Developed strong problem-solving and customer service skills in a high-pressure retail environment.
- Managed transactions efficiently, handling cash and card payments accurately. Maintained a well-organized and visually appealing store layout to enhance customer experience.
- Worked collaboratively in a fast-paced team, ensuring smooth day-to-day operations.
- Adapted quickly to changing demands, balancing multiple tasks during peak hours

Seasonal Sales Assistant

Clarks Shoe Store

- 📅 06/2019 - 10/2019 📍 Birmingham, United Kingdom
- Applied adaptability and initiative to provide tailored solutions for customers. Assisted customers in finding the right footwear, considering comfort, style, and fit.
- Delivered expert product knowledge and aftercare advice, enhancing customer satisfaction.
- Gained experience in stock management, replenishing inventory and processing deliveries

EDUCATION

BSc Software Engineering

Bournemouth University

- 📅 2021 - Present 📍 Bournemouth, United Kingdom
- BSc Software Engineering - Predicted 2:1

Computer Science (C)

Halesowen College

- 📅 2019 - 2021 📍 Birmingham, United Kingdom
- A-Levels: Computer Science (C), Psychology (B), Mathematics (C)

9 GCSEs

St Paul's School for Girls

- 📅 2014 - 2019 📍 Birmingham, United Kingdom
- (Grades 5-8), including Mathematics (8) and English
 - Language (5)

SUMMARY

I'm a driven and adaptable undergraduate software engineer with practical experience building innovative, scalable solutions. I have a solid background in computer science and a passion for high-performance engineering. My strengths include object-oriented programming and software optimization. I work well in fast-paced, results-focused environments and am ready to apply my technical skills and problem-solving abilities.

SKILLS

Agile	C#	Confluence	CSS
Data Structures	Git	HTML	
JavaScript	JIRA	Object-Oriented Design	
OOP	PHP	Python	React
SourceTree	SQL	Visual Studio	WPF
BitBucket	NET
